

Valve Monitoring Systems

Slip Lok™ Connector

for attaching conduit and instruments

Features

- Patented two piece design for easy installation of equipment in hazardous locations.
- Allows for optimal positioning of components, and locks them into position.
- Reduces time required for connecting and disconnecting conduit from instruments.
- Male NPT threaded connections - No special adapters needed.
- All 303 stainless steel construction to resist corrosion.

Construction

Part	Material
Body	303 Stainless Steel
O-Ring	Buna "N"

Ambient Temperatures:

-20°F to 180°F

Ratings and Approvals

UL and CSA approved

For use in hazardous areas

Class I, Groups A, B, C & D

Class II, Groups E, F & G

Division 1 and 2

Optional Features

Please consult ASCO for alternative body threading, materials, and/or elastomers.
